INSTITUTE OF INTERNATIONAL EDUCATION | BRAZIL SCIENTIFIC MOBILITY PROGRAM
Sponsored by CAPES & CNPq

Dear Colleague:

Thank you for your interest in hosting students through the Brazil Scientific Mobility Program. IIE is pleased to announce the launch of a new online application platform for new and continuing BSMP Host Institutions.

The 2014 application is for hosting students in both the full-time academic and intensive English components of the program; institutions may apply for one or both components by submitting a single application. If your institution is applying for both, the party submitting the application is responsible for coordinating your institution's comprehensive submission with your colleagues managing the intensive English component.

Once you create a new application account for your institution, you should keep a record of the email and password utilized to sign in. Please be sure to "opt-in" when creating your Institution Profile, so that IIE may review your application information upon submission. You may access a PDF copy of your submitted application for your records in your account.

After submitting the initial Undergraduate Host Application, the "Updates" section will become available in case you need to make changes to your application, such as for new contact information or program dates. Institutions will be able to submit a maximum of five updates each year, so please coordinate any update with your colleagues who manage all components of the program prior to submitting updates. Updates must be made in sequential order (i.e. Update 1 must be submitted prior to Update 2, etc.) and require that you re-submit your Institution Profile information.

Applications for both components of the Brazil Program will be accepted on a rolling basis. The preferred deadline to be considered for hosting students starting a full-time academic program in Fall 2014 is January 17, 2014. Application updates will be accepted until February 7, 2014.

Whether your institution has hosted Brazil Scientific Mobility students or not, please take some time to watch the BSMP Webinar for Host Institutions, as there are several updates to note; the presentation slides are available for download at that site. You should also refer to your application from 2013 when completing the new one, if one was submitted.

Please note that submitting an application does not guarantee your institution's eligibility to host BSMP students. If your institution is determined to be a good fit for BSMP students, we will send follow-up requests for admission to the admissions contact(s) listed in your application. You may submit the 2014 BSMP Undergraduate Host Institution Application here. Please address any questions as follows:

Full-time Academic Program – Fred Sanchez (fsanchez@iie.org)

Intensive English Program – Sidney Jones (sjones@iie.org)

We look forward to our collaborating with you on the Brazil Scientific Mobility Program!
