Quick Facts

Location (city, state): Davis, CA

Website: www.ucdavis.edu

Undergraduate student enrollment: 31,797

Public/Private: Public

Graduate student enrollment: 4,753

Type of Institution: Doctoral

Institutional Description (limit 250 words):

The University of California, Davis was founded in 1908 to serve the state of California. Ranked as one of the top research universities in the nation, UC Davis is recognized worldwide for how it transforms students' lives, the impact of its research, the excellence of its academic programs, and its service to the public. As a land-grant institution, UC Davis takes a holistic approach to addressing the most critical issues faced by the region, state, and the world. The university reflects and is committed to serving the needs of a global society comprising all people and a multiplicity of identities. A global leader in sustainability and environmental research—on campus, in the classroom, and abroad—UC Davis is a living laboratory dedicated to advancing solutions in areas related to climate change, biodiversity protection and conservation efforts, human and animal health, sustainable food systems and much more.

UC Davis is the most comprehensive campus in the University of California system, with four colleges and six professional schools. With more than 40,000 students enrolled annually in undergraduate, graduate, and professional degree programs, UC Davis provides the highest quality of education from world-class faculty experts while offering the resources to ensure that students succeed in school and beyond. UC Davis receives more than \$1 billion annually in research funding and contributes more than \$12.5 billion annually to California's economy.

Possible Academic Areas of Collaboration: agriculture, environment/climate, One Health, veterinary medicine, medicine, engineering, food science and technology, energy, social sciences and humanities

Institutional Strengths: agriculture, environment/climate, One Health, veterinary medicine, medicine, engineering, food science and technology, energy, social sciences and humanities

Partnership Interests: *(e.g., faculty exchanges, student exchange, dual degrees, joint research, distance learning, etc.)*

Interdisciplinary joint research on global challenges; faculty mobility opportunities, internship opportunities for UC Davis students in Kazakhstan; opportunities for Kazakh students to study at UC Davis (undergraduate, graduate, professional); opportunities to engage students in mutually beneficial global and intercultural learning opportunities.

Interest in Partnership: Why are you interested in partnering with a U.S./Kazakh institution? What do you hope to gain from such a partnership?

We seek opportunities to solve global challenges together such as food security, climate crisis, health, and others that will help to ensure a mutually beneficial and sustainable future for our countries and our planet. We want our students and faculty to learn from one another and support each other in mutual discovery.

Main Partnership Contact: (name, title, email): Michael Lazzara, Associate Vice Provost of Academic Programs and Partnerships, Global Affairs, mjlazzara@ucdavis.edu
Sarah Olson, Director of Global Partnerships on the Global Affairs team, sadolson@ucdavis.edu
