2. Additional questions and answers:

<p>We have a query on the point where IIE is seeking innovative new ideas regarding how to approach the Fulbright Scholar website. This is mentioned in the RFP doc under Section 5: Evaluation of Proposals. We note on page 6 of amendment 1 mentioned https://fulbrightscholars.org/ and on Page 19 of the clarifications, it is mentioned that the website - https://fulbrightscholars.org/ is used as inspiration for this current project. We are confused as to which is the website you need innovative ideas as we understand that your scope of work speaks of the 2 Primary sites - https://us.fulbrightonline.org/ and https://foreign.fulbrightonline.org/.</p>	<p>The RFP is only for maintenance and development of the Fulbright Student Websites (https://us.fulbrightonline.org/ and https://foreign.fulbrightonline.org/). The reference to the Fulbright Scholar Website in Section 5: Evaluation of Proposals is a typo.</p>

<p>We have no idea currently how many pages are behind the catalog portal. We need that idea to estimates the new search functionality.</p> <p>We had asked that question however the answer did not cover the number of pages behind the catalog portal - https://ccms.fulbrightonline.org/login.</p> <p>Like we asked above how many pages/assets will the search be across ? 900pages? 1000+pages? Or more</p> <p>What kind of NLP queries?</p> <p>Do you want a language answer/ just a page?</p> <p>What is the volume of queries expected? (per sec/hour/ day)</p> <p>What other languages than English?</p>	<p>The approx number of 900 pages includes all pages on https://us.fulbrightonline.org, including the Awards Catalog (~350 pages) and PDR Section (~150 pages). The other information regarding NLP is currently not available.</p>
