- African Network for Internationalization of Education
- Center of International Higher Education, Boston College
- Colombia Network for the Internationalization of Higher Education
- International Association of Universities
- Organization for Economic Co-operation and Development
- Southeast Asian Ministers of Education Organization
- Taipei Economic and Cultural Office in New York
- UNESCO Institute for Statistics

*PROJECT ATLAS*® was launched in 2001 by the INSTITUTE OF INTERNATIONAL EDUCATION. The initiative has been supported by the Ford Foundation, the Bureau of Educational and Cultural Affairs (ECA) of the United States Department of State, IIE, and country partners. The goal of this collaborative global project is to share accurate and timely data on student mobility at the higher education level, addressing the need for improved research comparability of academic mobility data. *Project Atlas* also helps strengthen data collection capacities worldwide through customized workshops and academic mobility assessment projects. For more on global student mobility data and associated research, please visit the *Project Atlas* website at <https://www.iie.org/research-initiatives/project-atlas/>.
