

The Power
of International
Education

WE BELIEVE IN THE POWER OF INTERNATIONAL EDUCATION

When the Institute of International Education (IIE) was founded in 1919, it would have been impossible to imagine the world we now inhabit, where international connections are paramount. We believe that when education transcends borders, it opens minds, enabling people to go beyond building connections to solving problems together. At IIE, we believe in the power of international education to generate comprehensive, global solutions in order to build a more peaceful and prosperous world.

A trusted not-for-profit that's been in operation for over a century, IIE works with a range of government and private sector sponsors worldwide to design and administer innovative international education and exchange programs that touch the lives of more than 28,000 individuals in more than 180 countries each year. In addition, we provide a lifeline to scholars, students, and artists impacted by global crises through our scholarship, fellowship, and emergency grant programs.

Our approach to international education and exchange—innovative, research-driven, and impactful—is a proven way for governments and organizations to invest in global talent and solidify cross-border relationships. As a world leader in international education and exchange, IIE advances scholarship, builds economies, and promotes access to opportunity for all people.
